

This will be the second time Korea fields a team for the International Lacrosse Federation under 19 Tournament since the creation of the Korea Lacrosse Association in 1997.

Korea's short history with lacrosse gives this year's squad a mix in talent level. Many of the players participate year round in the six different leagues found throughout Korea.

This will be a great step for Korea Lacrosse as we enter this tournament to compete as well, to further the development and passion for lacrosse in Korea.
